The revolving designs from this latest collection is a thing of beauty, joy forever!
TECHNICAL SPECIFICATIONS

DIMENSIONS:
- Width: 2440mm x 1220mm,
- Thickness: 1.5mm x 2mm

GENERAL USE & CARE GUIDE:
- Sapphire laminate is easily maintained. With proper application and appropriate care, our laminates will last through years.
- Cleaning should be done with water and a cloth, non-abrasive cloth.
- To remove minor stains, use mild household glass cleaner (like Windex). Gently wipe the stain with a non-abrasive cloth.
- Avoid the use of abrasive cleaning solutions, lemon cleaners, or solutions that may damage the surface of the laminate.
- Do not allow food or other corrosive residue on the laminate.
- Do not keep heating or cooling systems on the laminate.
- Do not use surfactant on the laminate.
- Durable surfaces recommended only for vertical application.

INSTALLATION INSTRUCTIONS:
- Use the SaphirOne adhesive before laying off, do not use as an adhesive.
- Clean the dust particles from the surface of the base substrate (Polyolefin, PVC, Particle Board) by cloth, soft brush, sponge or sandpaper.
- Thin the adhesive admixture by brush, roller or adhesive spreader on both Sapphire laminate and substrate (Polyolefin, MDF, Particle Board).
- Close the area, then after some time between two sheets of Sapphire laminate, as far as the time of control, it will be easy to remove air.
- Then, apply the Sapphire laminate and base substrate (Polyolefin, MDF, Particle Board).
- Use a soft cloth, roller or normal cleaning brush to remove the extra amount of preservative, let it dry, it will be easy to carry on the surface.

IMPORTANT INFORMATION:
- To avoid the bubble, follow the problem under the following guidelines:
  - Remove all air pockets under the laminate before installation.
  - Use a vacuum or adhesive underlay to help remove any air pockets.
  - Use an adhesive underlay or vacuum bag to help remove any air pockets.
  - Use a vacuum bag underlay or vacuum bag to help remove any air pockets.
  - Use a vacuum bag underlay or vacuum bag to help remove any air pockets.

LIMITED WARRANTY:
- Emco Polycarbonate products are warranted for ten years against defects and workmanship.
- Warranty does not cover any damage caused by incorrect installation.

RECOMMENDED ADHESIVE FOR PRESSING:
- Recommended for press laminate to the substrate.
Note: There can be colour variation in material from different batches. It is advisable to use same batch material to avoid colour variation. Actual colours of Sapphire Glass Laminate may slightly vary from the samples pasted in this brochure.

There is no guarantee or warranty for any bubbles, cracks, delamination or any issues after installation of the product.
