RAUVISIO Brilliant

High-gloss laminate with a lacquered
appearance

RAUVISIO Brilliant

RAUVISIO Brilliant represents our latest generation of high-gloss laminates. Thanks to its vibrant depth effect, it can replace high-quality painted elements. The brilliant high-gloss laminates consist of a PMMA and ABS layer, and guarantee a high-tensioning force with a positive effect on surface stability after processing.

RAUVISIO Brilliant exhibits excellent lightfastness and UV resistance. There is no colour fading, regardless of natural or artificial exposure to light when used for interior applications. The high-gloss laminate has enhanced scratch-resistance, making it an ideal choice for interior applications. The balancing sheet developed in-house is perfectly colour-coordinated to RAUVISIO Brilliant and has sufficient freedom from distortion for the pressed board.

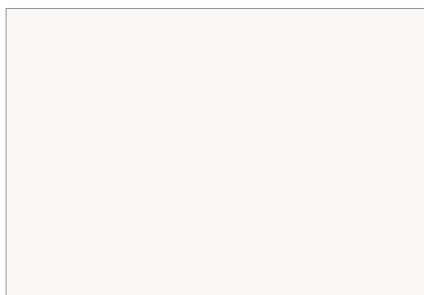

- **Enhanced scratch-resistance** even in daily use due to hard coat finish
- **Flexible processing** possible using conventional wood working tools
- **Wide variety of colours** available in our portfolio
- **Easy to clean** because of dirt-resistant coating
- **High quality finish** represents the quality of product
- **High chemical resistance** to ordinary chemicals and standard household cleaning products
- **Colour and UV-stable** for interior application
- **Size available** in 2440 x 1220 x 1mm
